**Top offer for your
private label**

Rely on our experience

With two decades of experience in the field of household cleaning products manufacturing, we are competent and equipped to consider specific client requests and jointly develop new tailor-made solutions. We develop our own tools (molds) for the production of plastic products and provide our clients with full technical support in the development of their own products.

sponges
and scourers

Quality, functionality, design

Our products are of high quality, convenient and ergonomic design for easy and efficient cleaning. We are up to date with the latest trends when it comes to functional solutions, easy handling and innovations in technology and materials.

sponges and scourers

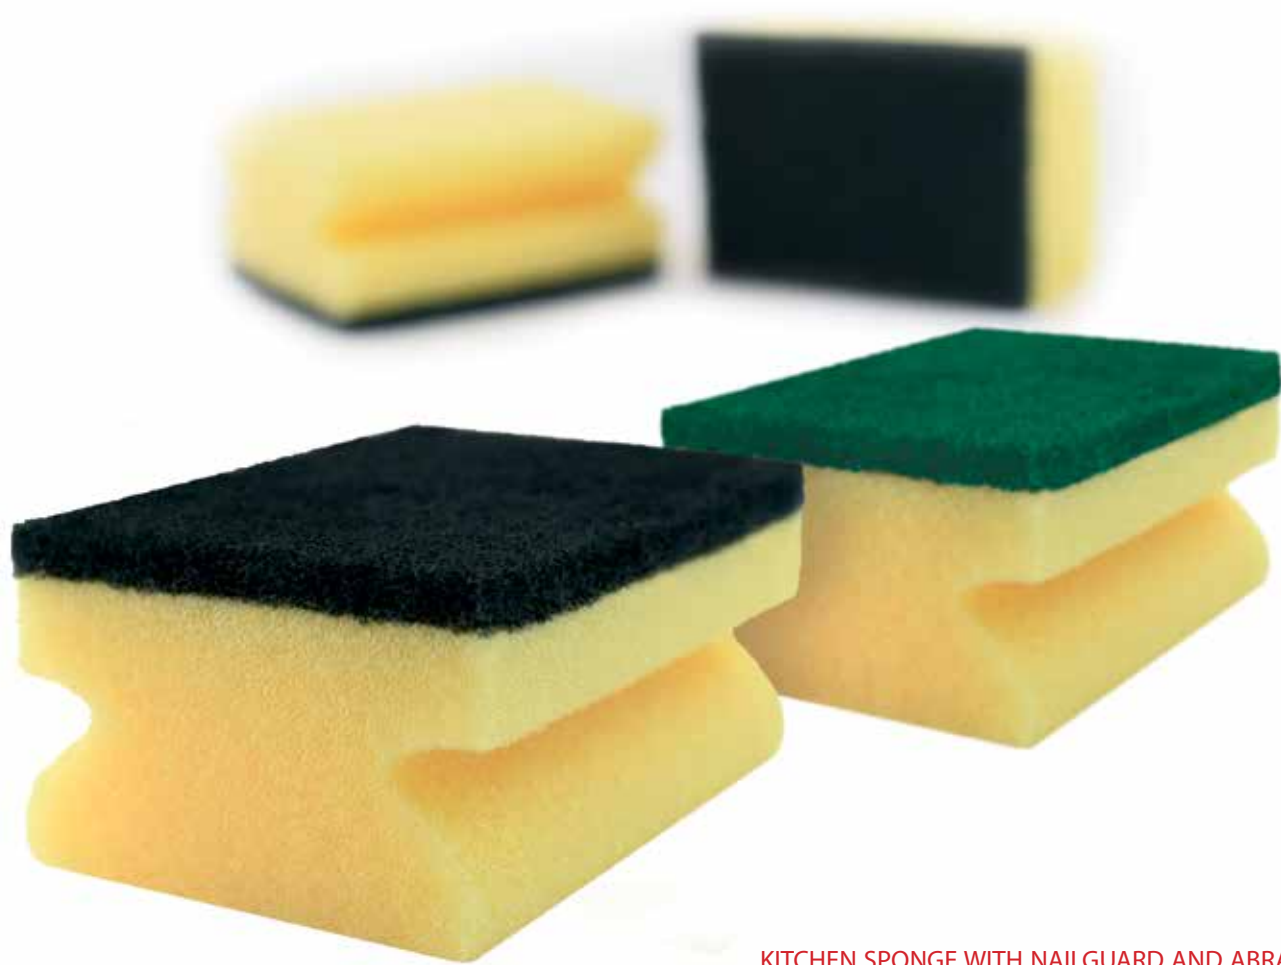

We produce various types of scourers and sponges made from polyether and polyester foam with abrasive fleece, as well as various types of cellulose sponges. We are able to offer each individual product in variety of models, colors and packaging, based on your requirements.

Unit number per one pack and pack number per one case, stated in the given table, both are subject to change and depend on client's specification. Our specialists are ready to customize the product further - to suit all of your requirements.

Quality is our top priority

As our clients rely on our capability to steadily deliver top quality products within set deadlines, we have learnt the importance of doing everything right. This is also reflected in our quality control of every single stage of the whole production process – from the development of our own tools and the design of products, up to the production, assembling and packing of finished products. The company is certified according to the ISO 9001: 2008 standards.
